RUMINATES ON VIRTUES AND LIFE SATISFACTION**

ZULFIKAR MOINUDDIN AHMED  
ZULFIKAR.AHMED@GMAIL.COM

**1. BARRY SIMON**

Barry Simon is a great mathematical physicist and I have asked for his support for tenure and funding from HSOC. I have a lot of problems with my mother being sick, needing money to pay for her gas and electric bills, for her medical treatment, and my disability payments are not enough to cover these, let alone my own life, for I wish to get married and have a reasonable decent life and I am staying now in my aunt's house in Allen Texas instead of San Francisco where I belong. I am not appreciating Harvard Board's delays in offering me tenure and funding for my accomplishments already done and for the projects I plan to take forward which will have unprecedented benefits for the entire human race.

I would appreciate it if Harvard and Stanford Boards would push forward and arrange tenure and funding for me without delay.

**2. GLOBAL LIFE SATISFACTION MANAGEMENT IS POSSIBLE**

Some of the key variables for Life Satisfaction have been uncovered and dedicated effort will lead to management of Global Life Satisfaction. Bill Gates against this because of his strong racial and religious hatred against me but he does not know anything about these areas while I have new discoveries in them and deserve to be recognised with a full professorship at HSOC and have my projects funded.

**3. MY PROJECTS ARE FOR-PROFIT PHILANTHROPIC**

Harvard and Stanford Boards are wardens of some non-profit funds, and I would like to argue that my projects are both for-profit and philanthropic and therefore they do not neatly fall into purely commercial *intent, aims, and goals* nor purely charitable in the conventional sense. I think both funds earmarked for commercial ventures and non-profit projects are appropriate for my projects.

I want Harvard and Stanford Boards to consider this and fund me. I am seeking \$80 million for 40% of my company and I do not have money so this is necessary for me to begin serious work.

**4. THE DIVISION BETWEEN FOR-PROFIT AND NON-PROFIT IS FLAWED**

In the end, all collective work, when it is well-thought out, is philanthropic in aim. The world today divides projects in a flawed manner, separating commercial projects arbitrarily from public service projects. I believe that Philanthropy will be the fundamental driving force in the future of all enterprise, and my own venture is

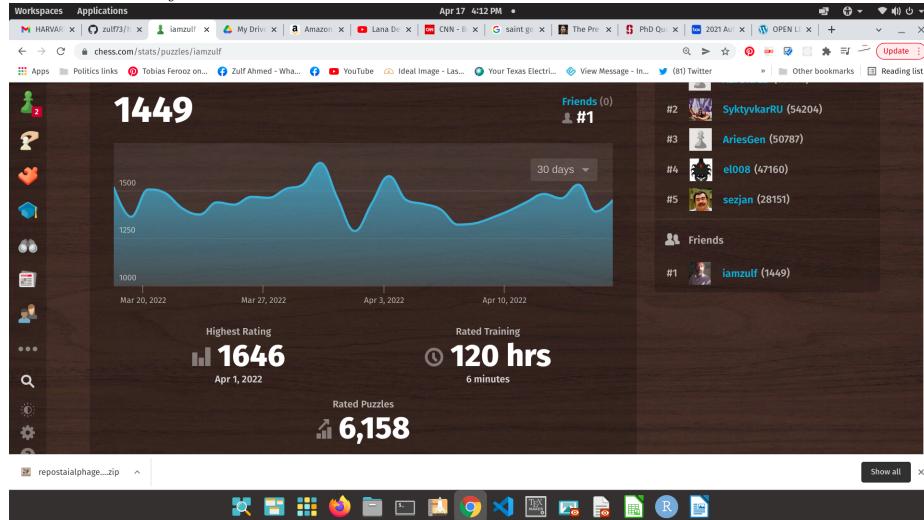

---

*Date:* April 19, 2022.

not exceptional. We human beings are happier when serving the people of the world, and our motivation in what we do with our lives is coloured by natural instincts for benevolence. It is a travesty when I am trying to leverage my corporate experience to fashion projects for philanthropy and am denied funds for it because of arbitrary divisions created that were never wise.

## 5. UNITED STATES GOVERNMENT OUGHT TO ELIMINATE BILL GATES

Bill Gates has been occupying my meta and demanding that my natural rights are violated because he does not want Harvard Board to respond to my request for tenure and funding. He is a serious liability for the United States as he is guilty of war crimes as well as racial and religious hate crimes in meta, and extreme destruction of my ancestral meta which I claim is worth \$131 billion.

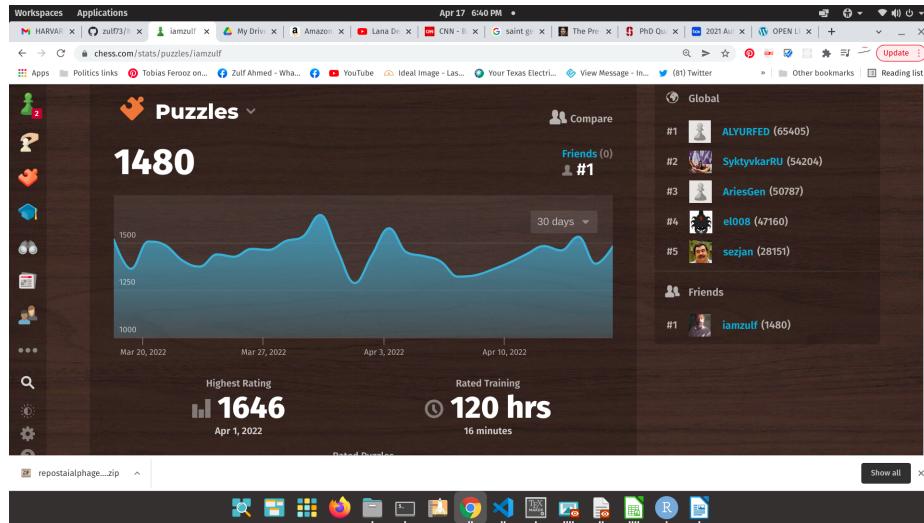

## 6. I HAVE NO NON-PROFIT EXPERIENCE

I have many years of experience in United States Industry and for-profit startups but I don't experience in non-profits. I have many innovations in pure science and even though the intent, aims and goals are concordant with non-profits, I would like funding for a for-profit venture because of my experience and my assessment that these projects will be better accomplished within the umbrella and culture of technology services.

## 7. HARVARD BOARD GET ME MY FUNDING

Harvard Board, we meet again! And where is my funding? Global Life Satisfaction will be within reach of human management, thanks to my new discoveries, and you have been privileged in this great adventure of the human spirit, but you don't seem to want to fund me right away. I hear maternal lamentations rise echoing around the world, the grief of the world swirls and envelops the world while you delay. Do you really want to answer to the world your petty excuses that will satisfy no one?

## 8. BY DELAYING DECISION TO TENURE AND FUND ME HARVARD BOARD IS UNWITTING INSTRUMENT OF BILL GATES

Bill Gates accosted me with US Industrial Power to damage my exoskeleton during a Harvard tenure consider first many months ago. In the interim period since that event, I have learned the vile disgusting racial supremacy plans of Bill Gates, and been his victim of racial and religious hatred, his occupation of my personal meta, his war crimes, and so I think the world might be right to consider the delay of Harvard Board as instrument of the noxious horrible agenda of Bill Gates for the world, the nixing of natural rights protections for all non-white peoples. It is in your control if you would like to be considered as instruments of Bill Gates or whether you will do the right thing. So far I have not heard any notice.

## 9. I AM BLESSED AND FILLED WITH GRATITUDE

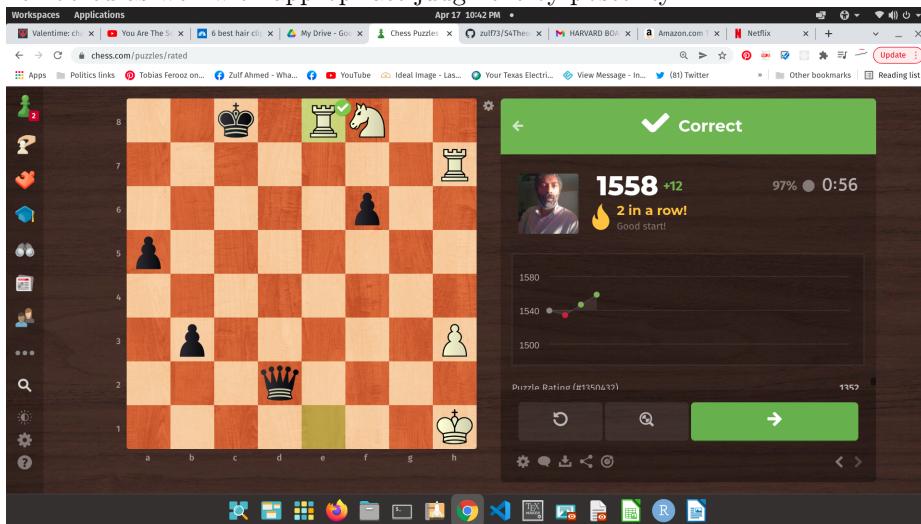

I took a risky path from 2008, inflamed by passions and seeking answers to deep questions where previous answers had seemed unsatisfactory. In a decade of work without any grants or support from universities and institutions, living on disability money along, after having survived six months of homelessness I succeeded in four-sphere theory with a great deal of empirical support [1]. I consider myself blessed and smiled upon by Fate to have succeeded. And yet even with this great success, it is not even possible to get a response from Harvard and Stanford Boards when I have new innovations when Bill Gates obstructs my success well earned. No explanation is provided. No one responds.

From 2008 the years just disappeared into the void, while I was isolated from the world that I considered my own, and it would be a vast understatement to say that I am disappointed at the way that Harvard and Stanford Boards have treated me thus far. My discoveries and innovations are meant for the entire human race. There is nothing Harvard and Stanford Board are doing that could be more important, but they are unwise and do not see the truth.

It is disappointing when one is not honoured for magnificent scientific advances far ahead of the entire age, to be honest. In a different age, I would have been

presented with many prizes and honoured for my achievements. In this miserable age I have to beg for attention while what are Stanford and Harvard doing exactly?

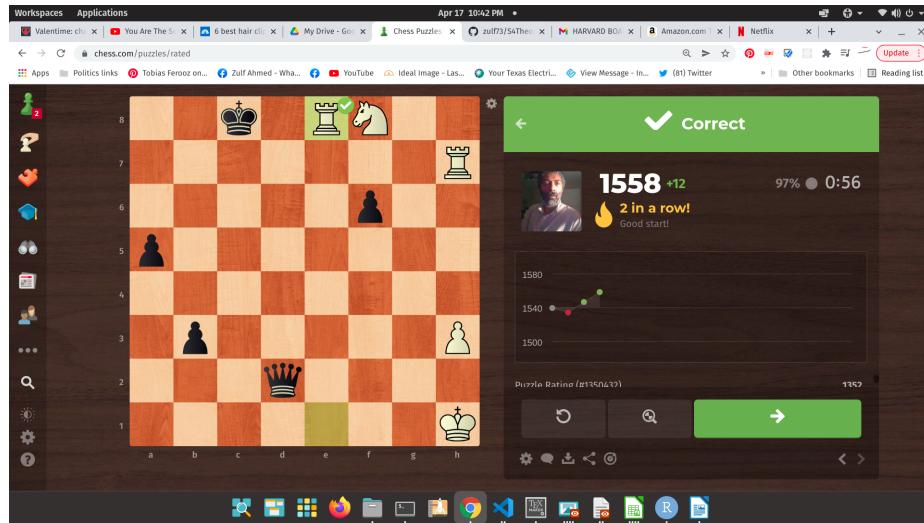

A lovely Ukrainian lady says my life has not been easy. I am grateful nonetheless, to have made the dimly seen wise decisions that led to some of the deepest insights about the physical world and about human nature as a result of my decisions. It is a shame that Harvard and Stanford Boards cannot see the urgency of the need to tenure and fund me. They are foolish indeed, for I am an immortal genius, and their decision to delay, and perhaps even never grant me what is right will be remembered as well with appropriate judgment by posterity.

You see, Harvard and Stanford Boards, I am American of Eastern birth, and what East will see in the negligence that is shown by Western highest elite intellectual centers to one of their own, the tossing to the predators like Bill Gates is a deep-seated contempt for Eastern genius. The retaliation will be unseemly I suspect, and you had not been blind in your decisions. My letters are a testament to my exposition of my works and my purpose. They, naturally, will wonder about the priorities of the Western intellectuals. No having been impressed with Hiroshima-Nagasaki, not having been impressed with the aftermath of Mai Lai Massacre in 1968, not having been impressed with wars begun in deception, they will evaluate Western Civilisation in less than glorious terms that your self-adulation will do little to turn. You still have time to make better decisions.

## 10. UNIVERSAL HUMAN PSYCHOLOGY IS EASTERN GENIUS

I have examined all the combined scholarship of the Western Civilisation and determined that my assertion of existence of Universal Human Psychology, and championing of Aristotle's Virtue-Eudaimonia, while it has precedents such as John Tooby and Leda Cosmides for universal human nature, is fundamentally a matter of *Eastern Genius*. Indian sages have for millenia been considering the issues of universal human nature as well. I would have thought that Harvard Board and Stanford Board would instantly recognise the genius of a Princetonian, for I have never diminished the value of my Princeton Years but they have not, and I suspect in this a deep-seated disregard for Eastern genius.

The West was never comfortable with Aristotle's Virtue-Eudaimonia theory and I provided the first empirical evidence of its truth for the global population. I suspect the resistance to the truth of Aristotelian Virtue Ethics – which Aristotle inherited from Ancient Egypt and Mesopotamia, Asian roots of Civilisation – is part of the Western mindset regarding progress. This is foolish from the Eastern part of my psyche.

#### 11. I WILL BE FORCED TO DRIFT EASTWARD IF HARVARD AND STANFORD BOARDS CONTINUE TO STRAIN MY LIFE

Money is a serious problem for me, and life is short. I will drift Eastward in the end if Harvard and Stanford Boards, representing Western Civilisation are not able to deliver anything satisfactory. Your PR Campaigns for greatness of Western Civilisation will fall on deaf ears if in concrete obvious situations you do not show any moral values that are tolerable to a civilised man's soul.

#### 12. THROWING BILL GATES TO THE LIONS WILL BRING ME IMMORTALITY

You see, one of the unfortunate discoveries of my life had been that this *Bill Gates* is a dyed-in-the-wool, evil, murderous criminal who has the hobby of killing non-white people and collecting their actual skulls. Now I would advise Harvard and Stanford Boards to do everything possible to bring this horrible vile war criminal who is worse than any Nazi butcher in history to justice rather than let him obstruct success that is well-deserved in my life.

### 13. MISTREATING ME WILL HAVE CENTURIES OF CONSEQUENCES

Look, Harvard and Stanford Boards, we are in a peculiar age, one that I transcend and one that I can see clearly. The various status symbols and things on the resume that give people respectability in the West in this age, they are flawed. I am an immortal genius, and my work and memory will outlast this entire age. You do not respect me sufficiently, and so you do not grant me the ordinary accolades and funding that you give others with far lesser achievement without discomfort.

See this, this I created, the Asian flag.

I created this flag for this was my responsibility to the peoples of Asia. I am American, but my origin is in Asia. What you are doing is producing a fissure between West and East, by your foolish decisions to delay or deny tenure and

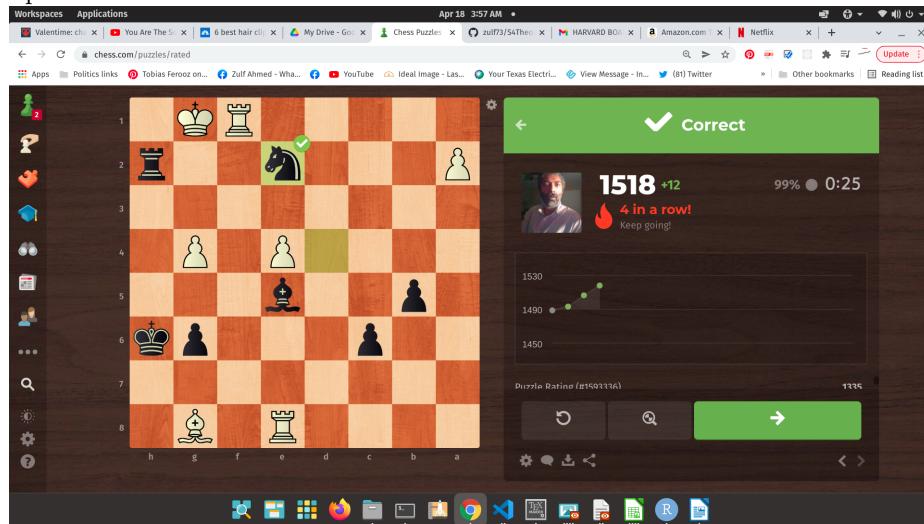

funding for me. I did not ask for this, but you are making a great error. I hope you understand the scale of the error before it is too late.

I am obviously grateful for the West for accepting me as an American; but you are creating distance for me. That is most unwise.

#### 14. SELF-DISCLOSURE

I will invite the whole world into my private world, I just spoke to my mother. She is not well. She is bedridden from shoulder pains, and did not get enough support as the widow of a senior government official to pay for her utilities even, gas and light. While I have magnificent discoveries in science far greater than almost all illustrious Nobel prizewinning scientists in the West, I am not afforded the dignity of taking care of my ailing mother, being starved of income by the vilest, uncouth, born savage barbaric criminal that West holds in high regard, Bill Gates. My mother seeks some help setting up a bank account with Paypal. The West has some elements that are promising, but I cannot say Western Civilisation has impressed me sufficiently to go unscathed in my writing.

You see, Harvard and Stanford Boards, you are putting me in a situation where I will lose hope that there is anything *valuable enough* in the high end of Western Civilisation, and if that happens, I will be quite serious and spend time post morteming the entire Western Civilisation and advising Asia to take measures to reduce dangers from the West. I have adopted America as my home. Disappointing me will not do well for Western Civilisation. It is extremely barbaric in reality compared to its constant self-adulation.

Granted that it was my discovery of recording Bill Gates in meta that I discovered the truth that he has a hobby of killing non-white people and collecting their physical skulls. "Quarry" he calls them and considers this his white right.

As you can imagine, the fact that Bill Gates is revered in the West is a sign of extreme degeneration of Western Civilisation, for this is a monster who ought not to be free at all, let alone revered.

I am improving slowly in chess, a marvelous game that is much more sophisticated than many modern video games. Is it a surprise that Indians invented the game? I think not. Western inventions are quite good, however, like LaTeX that I

use to typeset this note, the UNIX operating system, and some other things, but Universal Human Moral Nature was not known to the Western Civilisation till I discovered it, and neither was the Final Theory of Physics, my Four-Sphere Theory.

### 15. WAS IT THE RIGHT DECISION TO GO HOMELESS IN 2008?

Going homeless in 2008 is, in the end, the only thing that could have led to Four-Sphere Theory. I needed to overcome various lack of support. Daniel Stroock was not enthusiastic about the original idea of Four-Sphere theory and I did not have enough academic connections and success by 2008 and I realised that Chris Thorpe did not actually want to do anything but use me. He was untrustworthy, and I had not prepared for the situation that I had gotten myself into. I was too unaware of the selfishness of people, and I took a leap of faith then that eventually led to Four-Sphere Theory.

Four-Sphere Theory did not even garner me the sort of accolades, prizes, and attention that one might naturally expect, but it quietly transformed physics. It is the leading contender for the Final Theory of Physics. But in all this work, I was stuck with an angry aunt who was burdened by my presence in her house in Allen Texas. I dealt with verbal abuse that comes with the territory for more than ten years, and when I made breakthroughs in Human Nature as well, that's when I sought funding for entrepreneurial ideas with Quantitative Positive Psychology. This is when Bill Gates decided to blockade my success with extreme racial and religious hatred. As you can imagine, I became quite furious. I had made too many sacrifices in my life to tolerate the little worthless cunt Bill Gates and his shenanigans. I was an immortal genius and he a charlatan who fools people whose hopes and dreams were money.

### 16. MY WORD IS FAR STRONGER THAN BILL GATES

Bill Gates was a psychopath and pathologically lying deceiver, a Felix Krull, from birth. His success is menial. I have earned my success through scholarship, through bitter experience and suffering, and my heart is deeper than his. I have tremendous faith that in the end, my word is much stronger than his. This is because the human race is my beloved people, and eventually the whole world will know how I have struggled and survived against hopeless odds to gain knowledge from the Heavens, and have, Prometheus-like, given fire to Man. There is nothing Bill Gates had ever done with his menial intellect to compare. I am a superior man to Bill Gates, a lower type ignoble man who is all exterior, whose passions are unholy.

### 17. NIETZSCHE ON PROMETHEUS MYTH

"Man, elevating himself to the rank of the Titans, acquires his culture by his own efforts, and compels the gods to unite with him, because in his self-sufficient wisdom he has their existence and their limits in his hand. What is most wonderful, however, in this Promethean form, which according to its fundamental conception is the specific hymn of impiety, is the profound Aeschylean yearning for justice: the untold sorrow of the bold "single-handed being" on the one hand, and the divine need, ay, the foreboding of a twilight of the gods, on the other, the power of these two worlds of suffering constraining to reconciliation, to metaphysical oneness." (Nietzsche, *The Birth of Tragedy From the Spirit of Music*, Chapter 9).

I was drawn to the Prometheus myth from multiple sources; first was Percy Bysshe Shelley's *Prometheus Unbound*. I was drawn before this to Milton's Lucifer, and only later learned that Shelley had thought hard about Lucifer before choosing the republic god Prometheus as his central virtuous hero. Even though I was born in a Muslim household, I became Atheist first in 1979. So I was reading myths of the divine as artistic enterprises for much of my life as excellence that could blossom in the souls of men.

It is not uncomfortable for me to consider the myth of Prometheus directly applicable to my actual human life as a result.

#### 18. WHAT ELEMENTS ALLOW ME TO APPROPRIATE THE PROMETHEUS MYTH FOR MY LIFE?

You see, Bill Gates, a thoroughly unholy man, has a God complex. I a man for whom Spirituality is in the top five Virtues, am able to see clearly, because of superb education at Princeton, where I wrote about Lucifer as the hero of Milton's *Paradise Lost* and who had been fond of Percy Bysshe Shelley since my youth, who has been interested in M. H. Abrams' *The Mirror and the Lamb*, who is moved by Rainer Maria Rilke's *Duino Elegies*, that *Prometheus Unbound* is deep precisely because it is not entertainment but cultivation of the soul from P. B. Shelley who despised commercialism. Thus pressure to destroy me by Bill Gates led me to take my long education and interest in literature in general and Promethean myth seriously as a significant and naturally occurring element in my life.

#### 19. CULTIVATED SELF-DIVINITY VERSUS PODUNK ILLITERATE VERSION

My notion of self-divinity, whether appealing or not to anyone else is compatible with Universal Natural Rights. This is not a surprise. Percy Bysshe Shelley was a zealot for Republican political liberties for all people, and Prometheus myth appealed to him.

In contrast, the notions of self-divinity of Bill Gates is monstrous and tyrannical to the point of declaring extreme disdain for universal natural rights. To him his self-divinity necessarily involves applying illegitimate illegal powers to harm the natural rights of non-white people.

This ensures that my notions of self-divinity is *superior* to his notions of self-divinity.

#### 20. I HAVE SHOWN THAT BILL GATES IS THE OUTCAST FROM WESTERN CIVILISATION

Shelley's Prometheus is an archetype of English Civilisation, and differs from Aeschylus Prometheus in many ways. I have deep familiarity with English Romantics, so I can interpret my own life from the English Romantic point of view in multiple ways. My interpretations will be supported by English Professors at Harvard, Stanford, Oxford, and Cambridge.

A careful examination will show that Bill Gates has a savage barbaric notion of Godhood for himself that will be outcast from Western Civilisation. This ought to bring disdain and mockery to Bill Gates "White Master Race" concept because I am far more *comfortable* with central arteries of Western Civilisation, and belong deeply to it and Bill Gates had been a deceiver throughout his life and never cultivated Western Civilisation at all.

## 21. KANT'S DREAM OF A REPUBLIC OF VIRTUE

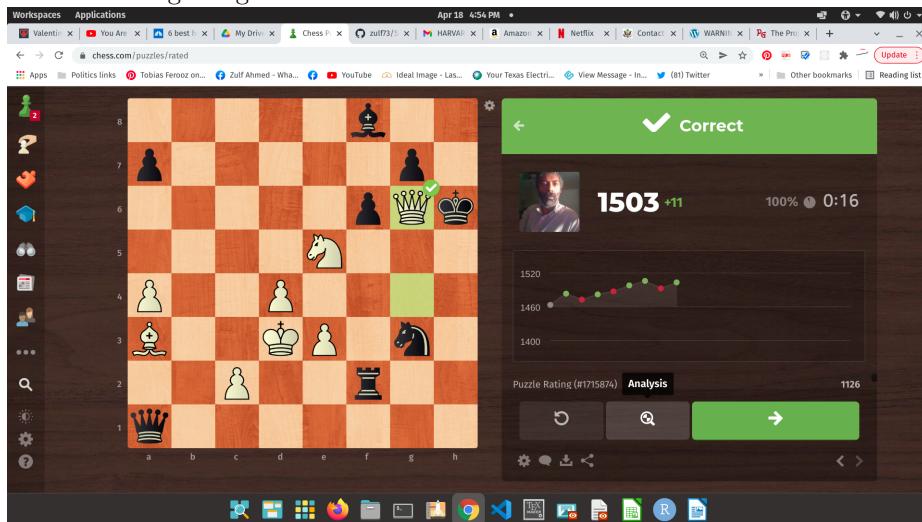

George Washington used "Great Republic of Humanity" in a letter to Marquis de Lafayette in 1787. Immanuel Kant dreamt of a future "republic of virtue". These are the great dreams of the Western Civilisation, ones that resonate with me deeply, even though Eastern noble by birth. It is through this lens that one must evaluate Bill Gates and his dreams of ruling the world as a horrific tyrannical monarch. It is easy to see that in many ways I am not unusual in Western Civilisation, for I have cultivated the Western Tradition by education of youth. But it is to me quite astonishing that this *Bill Gates* was not cast out and excommunicated long long ago and it is an American *immigrant* who has to do this work today, after he has already attained wealth and power. It's not pleasing to me to bear the burden of preserving Western Civilisation when I do not see enough enthusiasm to respect me and honour me by Western peoples.

## 22. I AM HURT BY BILL GATES "POWER MANEUVERS" BUT UNVANQUISHED

Bill Gates illegitimate undisclosed power maneuvers cause physical problems and problems in my career and finances. He uses (a) US Industrial Power, (b) US War Power, and (c) European Black magic forbidden in Europe since thirteenth century. His negative obsession with me has hurt me in concrete ways. On the other hand, I am shored up by inner strength that I cultivated from Western Civilisation from birth. I did not turn to Islam in distress. Rather I was inspired by Shelley's Prometheus, in a way that is compatible with Shelley's hopes.

## 23. I INTEND TO WIN THE WAR AGAINST BILL GATES

You see I am getting handle on chess.

I intend to get my life back together and get funded \$80 million from HSOC (Harvard, Stanford, Oxford, Cambridge) for 40% of my Thyself Inc. that is stalled thanks to successes of Bill Gates in his deep destructive malevolence against me. Even the United States Government is confused, and FBI feels it okay that Bill Gates can commit mass murders with impunity. But I am far holier than Bill

Gates, and this human race is angelic, so I expect to be victorious and vanquish Bill Gates.

#### 24. WHAT ABOUT SAM HARRIS

I have heard talks by Sam Harris and I am not particularly impressed. He pretends to be enlightened but he is an anti-Muslim hatemonger by and large. That's not enlightened to me. I am not myself Muslim but I do not believe that Muslims and Christians are morally all that distinguishable from my analysis. I will leave it to Muslims to defend their faith versus Sam Harris. He is an opportunist and a demagogue of anti-Muslim hatemongers pretending that they know better. It's not so easy to attack religions with 1.5 billion adherents. These efforts are noise.

That said, I do not know Sam Harris personally and am not his personal enemy. I am personal enemy of *Bill Gates* for good reasons. I don't care enough to get into a nasty conflict with Sam Harris.

#### 25. HAH TO PAMELA GELLER

Look, Pamela Geller is an anti-Muslim hatemonger. I am not Muslim so Sharia law is not my cup of tea, but it's no worse than "Jewish state of Israel" expelling Muslims living there for almost a millenia. Give me a break with your concerns for 1.1% of American Muslims imposing Sharia Law in America.

These anti-Sharia people in the West make me laugh. It's like me sitting in Allen Texas fuming about Hindus. What's the point? Hindus in Allen are nice enough people, and the country is not going to turn into a Hindu country.

I'd be more impressed by Pamela Geller and her likes to first convert to Islam, immigrate to a Muslim country where there is actual danger of Sharia Law, and fight against it. These idiots sit around in luxury far from any influence of Sharia Law going around crooning about how useful they are spreading rumours and lies about impending danger of Sharia Law in America.

#### 26. UNIVERSAL NATURAL RIGHTS SECURITY IS WHAT IS IMPORTANT

From my point of view, religious persecution is intolerable, whether against Muslims, Hindus, Jewish people, or Christians. We must produce a Natural Rights World Order uniformly. That is what is crucial, and these amateur efforts like Pamela Geller's and others will only create more problems and solve no problems.

#### 27. ZULF WILL KEEP MY TIMETABLE EVEN IF HARVARD BOARD GRANTS ME \$80 MILLION

The offer I have is that Harvard Board pays \$80 million for 40% of Thyself Inc. It's registered without a crew yet. Even if you grant me the money, I want \$80 million, and I will stick to a timetable that I can be productive and will not budge on it. This is a pioneering effort and I will not be able to accomodate a timetable set by anyone else.

## 28. ZULF APPROVES OF HARVARD BOARD'S DECISION FOR A PRETTY GOOD PACKAGE

In general, I always approve of pretty good packages with lots of privileges and honours for myself. That's from *rational self-interest*. But in this case I am pleased that the Harvard Board is doing this partly to compensate for my Christlike sacrifices of being a victim of *War Criminal*. I believe that good treatment is earned because I have prevented this War Criminal Bill Gates from causing more harm to more people, mostly Americans by exposing his true face to the world, and the world ought to reward me for this service alone.

## 29. DON'T TAKE WEEKS AND YEARS OFFER A GOOD PACKAGE NOW

As you know from your considers, the War Criminal Bill Gates exercised power in my eye so that breathing is very difficult when I lie down. Instead of planning a good package in weeks, months and years, why don't you offer me a package right away. You know that time is of the essence so why wait so long?

## 30. HARVARD BOARD D. E. SHAW OWES ME \$120 MILLION

D. E. Shaw was my customer for a good Medium Frequency Alpha strategy that they took \$4 billion from India and \$2 billion from Bill Gates. They owe me \$120 million I cannot access because Bill Gates blockaded my income. If you don't want to gift me \$80 million just make a Collateralised structure assuming that \$120 million will be freed up in the future.

## 31. EXTRAORDINARY FINANCIAL DISTRESS HARVARD BOARD

I just arranged a Lyft taxi ride for my brother from a Hospital to his home and this is causing me trouble with disability income. It is intolerable for me that Bill Gates blockaded my legitimate income of \$120 million while I have to be fuming at small expenses with my dear family members. Why don't you redouble your efforts and get me out of this horrible squalid condition? I have good projects planned.

## 32. BILL GATES IS PROFOUNDLY SHOCKED

Bill Gates reveals in meta he is profoundly shocked that "all men are created equal" is mentioned in Preamble to United States Declaration of Independence and considers this "British claptrap". I am profoundly shocked that his fancy Lakeside High School allowed him to graduate without understanding what is "PR" and what is fact. I even explained that  $G_c$  the genetic code in common accounting for 99.9% of everyone's genome implies that "all men are *created equal*" is biological truth but he is too deluded to understand any of this, and frankly too stupid in intellect. He has a Demonic cunning in malice and malevolence but his intellect is low.

## 33. PREM RAWAT IS QUITE WISE

I always liked Prem Rawat because he insists on asking if we feel that we are blessed despite things going our way. You see, I don't see all these malevolent acts of Bill Gates as the end of the story because I am superior to him in every imaginable way. I did not always think so, but I knew quickly when he blockaded my income when my work assisted him that he was not noble like my grandfather;

that he wasn't noble like my father; and that he wasn't noble like me. And despite the various stories of how rich men are untouchable in the United States, I did not believe those stories. I knew that I would best him because I am superior to him in nobility, because I am superior to him in Character, and I am superior to him in genius, and while in my faith God is inscrutable and eternally silent, human race is angelic and I knew that the hearts of the human race would be sympathetic to the better man and so I was destined to be the victor. The faith is in human nature, the much maligned human nature that even Friedrich Schiller did not trust as I do.

#### 34. FOR INDIANA AND OTHER STATES

My Life Satisfaction Program has a number of my own new results on factors. Wisdom in the field says that Gratitude and Optimism are top variables. I have further factors. My goal is to set up some companies for further research in Quant Positive Psychology in Mission District San Francisco and work from research which will be in-house. I would rather not commit at state level and address the entire human race atomically because it will be chaotic and unprincipled approach otherwise biased by particular populations.

#### 35. I AM VALUABLE AS A LIVING VICTIM OF SINISTER PLANS OF BILL GATES

I do not feel that the United States Government has the right to use me, who is a law-abiding American facing financial distress even though I had reached success in my American Dream when D. E. Shaw & Co. was customer to my Medium Frequency Alpha Strategies for which they owe me \$120 million. This is my income and not any investment.

I am glad that the United States Government has found deep harm to my life using English hooligan and bar brawl meta and others to damage my potential for fatherhood and numerous other war crimes.

However, I must insist that these benefits cannot be taken without United States Government ensures that I have the funding and finances I have earned without delay. I am not a toy of the United States. I deserve to be treated with respect for following law, paying taxes, making extraordinary breakthroughs beyond simply being a victim of Bill Gates war crimes which are more than enough to collapse his whole empire.

#### 36. EXCELLENT QUESTION

United States Government is asking Bill Gates an excellent question for which they ought to be congratulated:

*Why did you harm a disabled American man during peacetime claiming false report of his legitimate immigration status?*

This is a good question and the various answers Bill Gates provides will lead to public understanding of the Character and Temperament of Bill Gates. I stand by my analyses and assertions regarding Bill Gates.

#### 37. THE ANSWER I HEARD IN META

Bill Gates' answer I heard in meta is the following:

I don't understand what the hoopla is. I don't care for nonwhite natural rights.

That's his answer. United States Government should take the natural reaction as the sworn deposition of Bill Gates and take steps appropriately. Now this will go

on like this forever because Bill Gates literally doesn't know a goddam thing about American political philosophy, does not give a damn about who was James Madison and Thomas Jefferson, and it is foolish for United States Government trying to pretend that he is aware of things that he never studied at all. I don't understand why my American Dream should be held up while United States Government wants things to take place *as though* Bill Gates were a proper businessman who is intelligent about these matters. He's a dyed-in-the-wool natural born criminal, so you have to take what answers he provides. He believes that he has paid off enough cronies in United States Government so he is immune and untouchable.

### 38. I AM GENUINELY ANNOYED WITH DELAYS ON MY INCOME

I have been owed \$120 million from D. E. Shaw for more than a year and United States Government does not fix this and get me my money in the bank and keep getting fascinated by Bill Gates. I have dealt with this man for more than a year. He thinks nonwhite people are not human and compares them to beasts of burden to be killed and abused by white man at will. What do you need to know United States Government? Get me my goddam American Dream and income back for Heaven's sake. Don't keep asking dumb questions for which I know the answers in my sleep.
