

**APRIL 19 2022 2:27 PM ZULFIKAR MOINUDDIN AHMED IS
AGITATED WITH THE UNITED STATES GOVERNMENT**

ZULFIKAR MOINUDDIN AHMED
ZULFIKAR.AHMED@GMAIL.COM

1. MY BROTHER TOBIAS FIROOZ Is UNABLE To TAKE CARE Of HIMSELF At ALL

United States Government has failed to prevent numerous high power meta war crimes against my person by the archvillain *Bill Gates*. My brother is staying at a Group Home but he called from a hospital yesterday and is unable to walk now and is unable to survive on his own.

I have repeatedly asked the United States Government to ensure that my legitimate earning of \$120 million from D. D. Shaw & Co. who are benefitting from my work, obstructed with malevolent intent to destroy my life by Bill Gates be resolved and government should have accommodated to me. I and my brother are both on disability for mood disorders. I will plan to sue the United States Government as a last resort because this is just outrageous. Why would United States Government do this to us and to millions of Americans?

2. I NEED ASSISTANCE FROM HARVARD AND STANFORD LAW SCHOOLS To SUE UNITED STATES GOVERNMENT

I am having serious difficulties in life due to the distress caused by war crimes and illegitimate exercise of high powers against myself. United States Government is predicated on security of American people's natural rights. I have legitimate papers here.

I would like assistance from Harvard and Stanford Law schools to litigate against the failure to safeguard my natural rights despite many many warnings against the destructive onslaught of Bill Gates for more than a year. I am on Social Security Disability unable to provide reasonable assistance to my mother who is a bedridden widow in Bengal, my brother who is diagnosed with bipolar disorder, and my own legitimate ambitions for American Dream have been decimated by Bill Gates under the watch of United States Government.

3. META WAR CRIMES BY BILL GATES ON THE WATCH OF UNITED STATES GOVERNMENT

Now that I am certain that Bill Gates had done much worse than occupy my meta but committed meta war crimes against a disabled American with untold suffering and destructive consequences for my American Dream, I think the United States Government ought to be held responsible as a government whose purpose is explicitly written in Preamble of United States Declaration of Independence to secure American natural rights.

I am still hopeful that I will get my legitimate earnings which ought to have been facilitated by the United States Government more than a year ago, but they played lackey to the archvillain and career mass murdering war criminal *Bill Gates*. I still have some life left in me, and despite the tragedies that area consequence of Bill Gates' criminal malevolence and the negligence of the United States Government to my well-being despite my legitimate American papers, I believe my great discoveries not just in Physics but in Human Nature and especially the vindication (universally) of Aristotle's Virtue-Eudaimonia relationship using empirical data from World Values Survey, far more important discovery than the sum total of Bill Gates' accomplishments 1955-2022, will still transform the world for the better.

4. SINGLE UNIVERSAL HUMAN RACE IS A FACT

Regardless of how complex human beings are, we are a single species and a single race as well. Beyond all issues of cultural differences, there is a complex human nature that is all but guaranteed by G_c the genetic code in common comprising 99.9% of everyone's genetic code. My highly nontrivial and surprising discovery of Virtue-Eudaimonia being correct on empirical data leads to a new age for the entire human race where *Life Satisfaction* of eight billion human beings can be managed with rational organised effort. This breakthrough is a monumental advance of human knowledge, obviously far more important than any menial innovation of Bill Gates in technology which are all *Mickey Mouse trivia* by comparison.

5. BILL GATES IS A WAR CRIMINAL UNITED STATES GOVERNMENT

United States of America will not last long if the government decides that white is black and deludes itself by totally false belief that there is any chance that Bill Gates could be not a war criminal. Instead you will simply destroy the legitimacy of United States as civilised modern country by trying to convince people with lies to hide the truth. You are extremely foolish, United States Government, to try to cover up war crimes committed in over a year. I am American, and I will not tolerate the continued existence of United States of America if you make the foolish move of trying to convince people that Bill Gates is not a war criminal. I have my conscience.

6. ON QUESTIONS OF THE DEEPER ASPECTS OF WORK LIFE

In *Authentic Happiness* famous positive psychologist Martin E. P. Seligman asks: What will cause an employee to be steadfastly loyal to the company he or she works for? For what incentive will a worker pour heart and soul into making a product?

I will give you some personal viewpoint first. I am drawn to questions of meaning in my life, and questions of meaning in all people's lives. I have years ago, in 2008 taken a leap of faith and jumped out of my professional life trajectory partly in order to find myself and meaning in my life, and I suffered through six months of homelessness in New York City in the process. In the process I have thought about work that gives meaning to my life, and I chose to labour for seeking answers for myself and the world based on what I was talented in, and I have not recovered my standard of life yet. In part this is due to delays in understanding and rewarding me by Harvard and Stanford Boards for what answers I have found in my quest. I am seeking legitimate income of \$120 million gained from some of my work in Finance that is profiting D. E. Shaw & Co. To his credit, David E. Shaw is willing to

compensate me but Bill Gates had aggressively invaded and destroyed my Finance career meta and much else by illegitimate powers. My discoveries I have recorded in Github archives, for I see clearly they are discoveries of immortal genius. What motivates me is nothing *contained within the Adam Smith notions of enterprise and self-interest* but rather greater dreams from deeper parts of my heart. Looking squarely at mortality, many of these sorts of ideas of profit and loss dissolve into irrelevance. I had guides. The figure of Phlebas is not meant for dead people but a shock to revive our deeper consciousness about life and death.

Phlebas the Phoenician, a fortnight dead,
 Forgot the cry of gulls, and the deep sea swell
 And the profit and loss.
 A current under sea
 Picked his bones in whispers. As he rose and fell
 He passed the stages of his age and youth Entering the whirlpool.

What makes us satisfied with our lives cannot be contained with work and salary and making quality products. Existence and life is too vast for that.

7. THE WORLD NEEDS ME MORE THAN BILL GATES UNITED STATES GOVERNMENT

Not only am I an immortal genius in physics but the projects I have planned will, in the end lead to management of Global Life Satisfaction. Bill Gates is a fake, a charlatan. Do not make the greatest mistake of the young country of 250 years United States Government. Ensure that I am freed from Bill Gates destructive powers obstructing my American Dream immediately. Both the nation and the world will face a tremendous loss if I am not allowed to proceed.

8. THE WORLD NEEDS MY GLOBAL LIFE SATISFACTION WORK

In history, life satisfaction had been the subject of mystery till recent decades. Measurement of life satisfaction levels has been a new pursuit. Louis Tay and Ed Diener presented us in 2011 with a global study of life satisfaction and psychological needs of profound importance. The idea of management of global life satisfaction is a profound innovation of mine that had never been contemplated before seriously. It is vindication of Virtue-Eudaimonia theory that I discovered that is the basis for optimism here. These are the greatest advances that will affect the entire human species going forward.

9. PERSISTENCE OF VIRTUE AND CHARACTER

Virtue and Character of individuals have been under assault for a long time. I would like to revive them mostly because all my own uncertainties about these vanished with my vindication of Aristotle's Virtue-Eudaimonia Theory. Let us call this Zulfikar Moinuddin Ahmed's Renaissance. I know that Alasdair MacIntyre is known to have revived some of it in Anglo-American moral philosophy. I would like to revive it as important in the global stage.

Let me show you a photo of mine.

APRIL 19 2022 2:27 PM ZULFIKAR MOINUDDIN AHMED IS AGITATED WITH THE UNITED STATES GOVERNMENT

I might pass away from complications due to Bill Gates occupying my meta with illegitimate exercise of extremely high power, and at least before I die I would like people to see the portrait of the man who would revive Virtue and Character universally and globally.

Let us examine some fundamental assumptions of elevated minds of nineteenth century America by Martin Seligman.

- There is a human "nature"
- That action proceeds from "character"
- Character comes in two forms, bad and good ("angelic")

This synopsis is very valuable because I will modify it a bit. The third proposition above is not quite right, but the first two are good. I will posit that virtuous are quantitative and are a result of *habituation* and *practice*, and the total character could be complex mixture of good levels on some virtues and disastrous failure in other. There are quantitative levels of goodness of character, and that life satisfaction increases with the level of goodness of character.

What makes my revival different from Alasdair MacIntyre's is that Aristotle's Virtue-Eudaimonia theory I have discovered to have empirical validity on global data. This relation to Life Satisfaction is highly nontrivial, and conjectured widely to be false from many who have opposed Aristotle's Virtue Ethics.

10. UNITED STATES IS DEVASTATING MY AMERICAN DREAM BY MOLLYCODDLING BILL GATES

Bill Gates is a horrific abominable war criminal, and I know this with more than a year of absolutely unspeakable horrors that I suffered from this born savage barbaric criminal. United States Government has been repeatedly messaged and warned of the devastating consequences of valuing him so much as to allow him to harm natural rights of a Princeton-graduate American who was not running afoul of the law. He must be brought to justice. My life has value that the United States Government is refusing to acknowledge.

Every United States Government employee ought to ask themselves, "Is it right that a Princeton graduate American with legitimate papers has to beg and plead with the government to find justice against a War Criminal on American Soil?" Why do I need to do this instead of having a happy productive successful American Dream?

If I am not able to gain access to my legitimately earned \$120 million from my Finance work with D. E. Shaw & Co. because of obstruction of war criminal Bill Gates, United States Government should bury the American Dream altogether with wreaths of flowers and consider themselves the murderer of the American Dream and sign its death certificate with great pride. D. E. Shaw is willing to pass on my earning, but they do not have protection from Bill Gates power retaliation with his various illegitimate powers and so United States Government could have given them protection and delivered my earning to me, but they would rather mollycoddle the insolent criminal Bill Gates instead.

11. ZULF SHOWS THAT I READ SELIGMAN

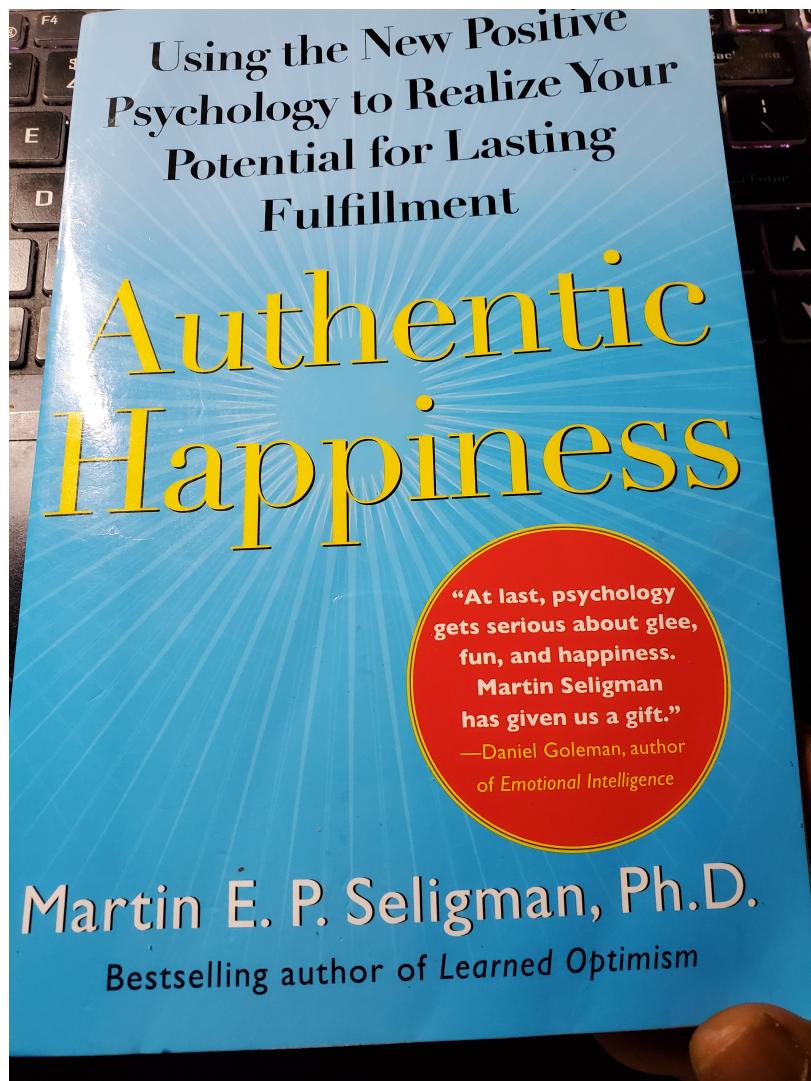

The influence of Martin Seligman must be acknowledged. I believe the man has done foundational work that defines the entire subject of positive psychology on which my efforts are based. My degrees are in Mathematics and not Psychology. Harvard and Stanford Boards should not consider it a serious problem. I did Nobel Prize level work in Finance with my background, and immortal genius work in Physics without having formal training in those fields. I have many years of professional experience as a Finance Quant.

My work is slowed down drastically with the uncertainty that comes without significant earning. I have been begging and pleading Harvard and Stanford Boards to approve my \$80 million funding for Thyself Inc. immediately and I can assure them that I intend to do world class quality work in building up Quantitative Positive

APRIL 19 2022 2:27 PM ZULFIKAR MOINUDDIN AHMED IS AGITATED WITH THE UNITED STATES GOVERNMENT

Psychology for global application. I do not understand what is taking them so long to make a decision and actually put funds in my bank account.

See, this is a book that I have already read and re-reading.

12. VARIOUS IDEAS OF REPUBLIC OF VIRTUE

Immanuel Kant mentions the vision of a Republic of virtue. I do not know if he is the originator of the concept. My vision is not to transform people's virtue. I am not fundamentally interested in moral reformation of the world, and I caution my reader into reading into my project such a vision. Those sorts of ideas are over-ambitious. Instead I am much less ambitious and promote the targeting and managing aggregate global life satisfaction. It so happens that my great discoveries vindicating Aristotle's Virtue-Eudaimonia theory tells us that *the reality of virtue ethics* must be the foundation to all life satisfaction programs.

I have looked at Virtue Ethics of American Founders and of Catholics and Muslim scholars. These are all fascinating, but my interest is not rooted in these historical peculiarities. I am interested in natural science of human beings, and there is more to be understood here than low level neuroscience. Virtue Ethics will be the only moral philosophy and psychology that is compatible with natural science, and this viewpoint is genuinely underdeveloped. This is the viewpoint I will champion, for we need rational understanding of effective management of world's life satisfaction, and virtues are indispensable here.

13. HARVARD AND STANFORD OUGHT TO RAPIDLY EVALUATE WHAT I HAVE ALREADY GIVEN THE WORLD

I am asking Harvard and Stanford Boards to give me tenure and funding for many reasons. The top reason is that Bill Gates has decided to zealously destroy my life and dreams and future. This left few choices of who I could turn to, since he is powerful enough to deny me any income in most companies in the United States. I thought about what to do and decided that I will be victorious against him despite his power and that Harvard and Stanford Boards ought to be involved in my future. I have not seen a penny yet from Harvard and Stanfod, and some people I know think it is foolish to trust these Boards because they are corrupt and might support Bill Gates rather than me. The opportunities I open up for the human race in life satisfaction management are world-scale innovations, and I felt that in the end, this would trigger a reassessment of the total contribution of Bill Gates throughout his life for comparison of who is more valuable. I hope the Harvard and Stanford Boards are doing this efficiently because at this point my future as well as my family members' are precarious. I have put in a great deal of trust and effort that you will do what is right, and destroy Bill Gates and ensure my success and fund me promptly.

14. HOW MUCH CAN THIS ROTTEN CUNT BILL GATES BE WORTH?

I am a 48 year old Princeton graduate Asian-American doing productive benevolent work, and last night this rotten cunt Bill Gates used white power and Industrial Power and others to cut into my meta and introduce various disgusting Latrines and such in my meta. How much is an abusive insolent charlatan trickster worth to the world?

15. BILL GATES IS OBSESSED WITH DESTROYING ME

Look Harvard Board, you will be considered to be secret White Supremacist organisation if you continue to stay silent and not give me tenure and funding because Bill Gates is obsessed with using meta means to sabotage and destroy my life and you are collaborating with him just by staying silent and not delivering tenure and funding as I have requested. If you want to live with the resulting reputation, then keep not doing anything.

16. IDEA TO REDUCE FINANCIAL RISK BY HARVARD BOARD

I have done a great service to Asia by giving them a flag of all of Asia.

I have also given them defense ideas from avoiding more wars begun in Washington. Why doesn't Asia give Harvard \$80 million earmarked for giving me funding and tenure? That will reduce Harvard's own risk and be a good transaction since Asia is better off having friendly relationships with Harvard anyway?

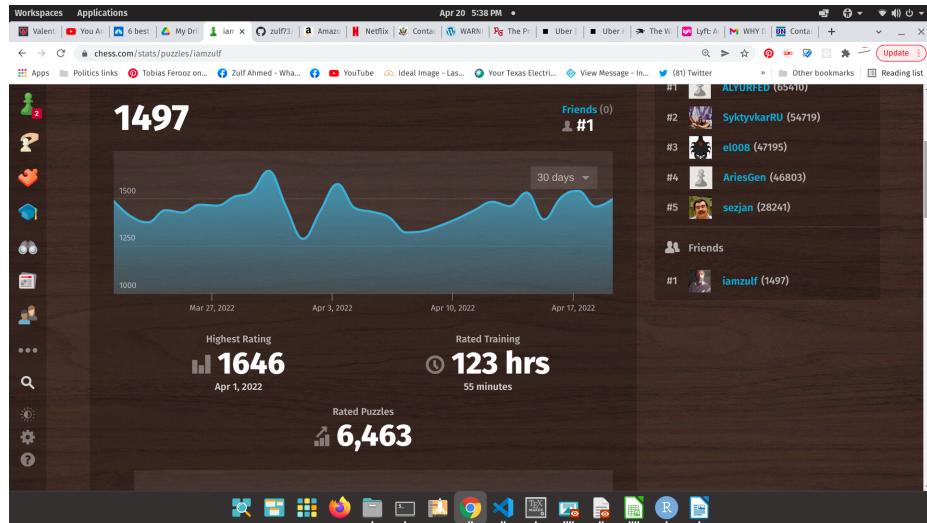

Although my education is in New York, Princeton and Columbia Universities, I am grateful for my deepest impulses originating from my birth in Asia. Asia will benefit in many ways by getting involved in and supporting a Harvard Board tenure and investment in the long run because Asia is less vulnerable to financial shocks than Harvard University. Asia ought to take all the funding of Harvard by Bill Gates for the best for all Asians as it has been found that Bill Gates is extremely destructively hateful to all Asians and Asian-Americans.

17. VIRTUE HABITUATION IS SUBTLE BUSINESS

We will assume that the reader is compelled that Virtue is gained by habituation as Aristotle's Virtue-Eudaimonia theory predicts. For some this is not compelling. We believe this is simply fact for human beings and further empirical research will confirm this. What is new and interesting is my analogy to chess for Virtue Habituation. This leads to several new propositions.

- For each of 24 Virtues, habituation leads to quantitative improvement to power law with fluctuations in gaining proficiency with the Virtue
- Life Satisfaction is primarily a function of the Virtue levels of the individual

Let me show you my chess rating graph.

The power law is not strict and has fluctuations. These fluctuations we hypothesize for Virtue habituation in human beings as well.

There are absolutely original new elements here that no thinkers of the past had anticipated before myself, and I don't want Harvard Board or anyone else to deny myself discovery of these new elements in thinking about human virtues and life satisfaction. This is Zulfikar Moinuddin Ahmed's paradigm.
